OBJECTIVE

To continue to learn and develop into a valuable asset to the team I work on.

TECHNICAL SKILLS

Java	Spring MVC	Python
Microsoft Office	Windows 10	Hibernate
Git	Thymeleaf	MySQL

PROJECTS

LaunchCode Capstone Project, LaunchCode, St. Louis, MO, 2018 (in progress) – Building an application that uses the Spring framework which serves as a way to assist apartment seekers who don't meet the requirements of many property owners due to having bad credit or evictions on their record. An actual company would use this application to set clients up with property owners they are working with whom want to fill vacancies. The application also employs user authentication.

EDUCATION

LaunchCode – St. Louis, MO   **2017 – 2018**
